The Regional development agency of Karst and Brkini, although is a private company, it acts as a non-profit organization and functions as the regional development agency and also as a promotor of tourism of the Karst and Brkini area.

About our destination:

The name of our special world, located between the Gulf of Trieste, the Vipava Valley and Brkini, is the Karst. It is where water and soluble rocks make contact. This has seen the emergence of a magic world filled with underground caves, disappearing rivers, dolines and other karst phenomena. In fact, our Karst plateau gives its name to all similar landscapes around the world with comparable soil composition and the whole set of karst natural phenomena.

The famous Teran wine beckons you to visit the local cellars, while homesteads are curing exquisite prosciutto and waiting for a special type of cheese to mature. The gmajna grasslands are both a fragrant herbal garden and a meadow of wildflowers for bees. The wonderful fruit from the Brkini area is known from far and wide.

CUBO GROUP

Accommodation

Our wish was to add a new asset to the selection of hotels in Ljubljana: a hotel capable of providing all the services of large hotels, but with a distinct, intimate atmosphere that can only be created by a small property where the staff can pay special attention to each and every guest. Hotel CUBO is housed in a historic, protected building that has been enriched with a fresh, modern design to create an impressive contrast. We have always been aware of the fact that an excellent location, spacious rooms and select furnishings represent only a part of what a superior hotel must offer its guests. At CUBO, service comes first, and this is why we focus intensively on

staff and their willingness to perform with excellence, dedication and heart, all the while welcoming our guests as if they have just arrived to our staff members' own homes.

Give us the pleasure of welcoming you to our hotel, and give yourself the opportunity to experience Slovenian hospitality first-hand. Come to Ljubljana, stay at the CUBO Hotel!

HOTEL MRAK D.O.O.

HOTEL MRAK'S HISTORY

Hotel Mrak is located in the centre of the old town of Ljubljana. When you enter the hotel lobby, you can feel its cosy and warm atmosphere, unique by its history and location.

The walls of the Hotel Mrak are hiding an interesting and poetic story about a Slovenian writer and his muse. Its garden hides a 200-year-old vine that still gives shade to sit in. This was the home of the famous Slovenian writer and dramatist Ivan Mrak. As a young man, his father, Valentin Mrak, started to work as a servant in the kitchen of a renowned local pub. As he carried out his work diligently, he was promoted to an assistant of the pub manag-

er and soon he took over the business. When he bought a house and moved his business and family to the present hotel location, close to the archaeological excavations of the Roman wall, he was so excited about it that he decided to name his pub "Old Roman Guesthouse".

Since 2016, the hotel has been owned by the Kuharič family. They are trying to give it a breath of modernity and, at the same time, respect the culture and keep its rich tradition.

ABCTOUR D.O. O.

The touristic roots of Abctour go deep into 1950' when the owner's father started driving first tourists. The next stage came with bus driving license and a few millions of km driven all over the streets of Europe and beyond. Ciril always wanted something more and finally decided to use the knowledge and rich experiences in his own company. In 2006 he founded Abctour d.o.o.

Our strongest aim is to remain small and flexible and work on tailor made tours around Slovenia or neighboring countries including transportation, accommodation and good guiding.

We want to point out two recent improvements. The VIP van with 6 passenger seats suitable for more demanding clients and a brand-new trailer for 15 bikes enabling transport of bikes (racing, elec-

tric, tracking, mountain ...) to any point in Slovenia accessible on normal road.

It is no problem to extend the tours beyond the borders of Slovenia into neighboring countries: Croatia, Italy, Austria or Hungary.

We aren't limited to tourist workers. Do you need an historian to explain the west border of Slovenia, an art historian or an architect to guide you along Plečnik's work recently enlisted on UNESCO, a botanist to tell you about alpine flora or spend the five days garden tour with you, a mountain guide to hike the highest peaks? SLONCEK, D.O.O.

We offer domestic and foreign guests the most selected offer of boutique Slovenian accommodation, with top-quality local cuisine and unforgettable local experiences in the immediate vicinity of the accommodation. Connect selected local providers: boutique accommodation, selected cuisine, unique experiences in nature, cultural traditions, into one-day, multi-day and “custom” packages, which are: peaceful and authentic knowledge of the local environment, enjoyment of local cuisine, contact with nature, learning about local cultural traditions and experiences offered by the surroundings in the immediate vicinity of the accommodation.

In the Slonček agency, which has been on the market since 2015, we have developed an online and mobile platform “On the way to experience”,

through which we will market “custom” and package offers of selected boutique accommodation, local cuisine and unique activities in the immediate vicinity. We have acquired more than 100 selected providers of boutique accommodation in Slovenia, written on the skin of a more demanding guest. We help each provider to create an offer that, in addition to accommodation, offers the guest a comprehensive offer of activities in nature or different experiences offered by the local environment. In this way, we connect boutique “green” accommodation with local providers in one place.

TOURIST AGENCY GREEN ADVENTURE

Under the name Green Adventure lies a selection of travel products which consists of a combination of different activities in nature. These activities will leave an indelible mark on you and make sure you will not want to leave and persuade you to keep coming back. These are high quality adventure tourism services tailored for a small number of people (from 2 to 6), with each attraction being a story in itself but with a strong bond between them. In addition to the powerful sensations that you will experience when catching brown trout, watching brown bears in their natural environment, walking through the primeval forest or care-free rowing in the canyon of the Kolpa, Krka or Temenica River, you will be pampered with the local cuisine dishes, all transports are provided, our professional guides will lead you and much more ... The starting point of our attractions is the capital of Dolenjska region

– Novo mesto (situated 70km from Ljubljana). In addition to having incredible experiences in nature, we can also arrange transport from the nearby airports (Ljubljana, Zagreb, Trieste) to Novo mesto for our guests, arrange hotel accommodation in the heart of the town center and satisfy other different wishes.
